

Differences between non ISEV and ISEV course

1. Participation of seniors
 - a. Seniors do not participate on NON ISEV course, they are only consumer, user
 - b. Seniors actively participate on ISEV course in acquisition, creating study materials, leading lessons.
2. Participation of students
 - a. Youth does not participate on NON ISEV course.
 - b. Youth participates on ISEV course as members of intergeneration dialogue and as IT assistants.
3. Social inclusion
 - a. Social inclusion in NON ISEV course is on basic level, no special arrangements are made.
 - b. ISEV course concentrates on social inclusion in: intergeneration dialogue among people of different ages (from youth to seniors), establishing of team work for seniors to be able to communicate as face-to-face as through SMART technology. Activation of seniors for active approach to teaching and learning activities leads to much more social activities.
4. Requirements on staff
 - a. Requirements on staff are more demanding in ISEV course. Staff has to be trained in using virtual classroom.
 - b. Teachers have to be familiarize with ISEV methodology in its four pillars, have to be experienced teacher in social inclusion, motivation how to active seniors, teachers have to be able to establish intergeneration dialogue, etc.
5. Using SMART technology
 - a. Seniors on NON ISEV course use SMART technology but in much less level than in ISEV course. They have to read study materials in virtual classroom and communicate through discussion board.
 - b. Seniors on ISEV course have to be experienced users of SMART technology. They have to obtain information not only from web pages but also from specialized information systems like digital archives, etc. They have to prepare materials in different formats (texts, pictures, videos), they have to have skills how to work with genealogy software.
6. Financing
 - a. NON ISEV course is funding by Ministry of Education CR and partly is financing through tuition fee.
 - b. ISEV course in funding through Erasmus+ program (ISEV project).
